ISSUES, ISSUES, NO TIME FOR ISSUES!!

The writing is on the wall. It's obvious that all of us in the rail industry are busier than we have been for quite some time. At TransMatrix, Inc. we can tell, because two month's ago in our June issue of "The Inside Track" we opened up "The Back Page" to anyone in the industry with a rail related subject or issue that they wanted to discuss. Well, we didn't receive any feedback at all! It certainly is understandable if you take into account the "Trends" page of the July issue of Progressive Railroading. It shows that total carloads from 2003 to 2004 are up on every Class 1 railroad in the U.S. and in Canada. The U.S. and Canadian carloads are cumulatively up by 4.5%! That's good for all of us. It shows that the economy is on the upswing.

Our previous proposal still stands. If you have a rail subject or issue to discuss, just give us a call at TransMatrix, Inc. and we may be able to fit it into a future issue of "The Inside Track". Of course, we're still out here doing our regular 8 am to 5 pm job of trying to help our customers find the rail equipment they need, or have available for sale or lease. Some things never
